Dear Professor Lederberg,

I came to know only recently that Dr William Hayes died last year. As you know, he was a member of the editorial advisory board of the Journal of Genetics. We are keen on publishing a brief reminiscence by you on his early work on bacterial genetics, especially sexuality. I would appreciate very much hearing from you whether you may be able to find time to prepare such an article for the April 1996 issue.

Best regards.

*I don't think I will be able to
do this. Perhaps try

Elie Wollman
in Paris.*

Yours sincerely,
